

## WEBINAR: FINANCIAL STATEMENTS

### 30/01/2016 online course

Hello everyone,

Welcome to our first seminar for professional translators working with financial subject matter, my name is Aide and I will be the presenter.

The main purpose of this seminar is to provide you with the basic tools to translate documents in a fast and efficient manner, while at the same time, meeting the quality levels required by the private companies and governmental entities that may require your services. Hopefully after this seminar you will be able to help others convey their knowledge in whatever language you know and they don't.

The seminar will last 90 minutes, during which time we will go over the **basic 4 financial statements**, the **balance sheet**, the **income statement**, the **cash flow statement** and the **statement of stockholder's equity**. I'll try to give you a sense of the purpose of each individual statement, what people in the financial sector look for when reading them, as well as some potential mistakes to watch out for. Afterwards we will go over some basic vocabulary, and then we'll have some time for a Q and A session.

Well, I look forward to talking with you and I hope this seminar will be useful for your careers as translators.

Good bye.

**Moderator: Aide Salgado Díaz**
